

TruExpress Color Matching

Industry leading turnaround program for small batch color matches

TCl is where your time matters. Our TruExpress program is industry leading due to our efficient color matching process. Once a project is accepted by our product development lab, colors can be matched in as quick as 3 days or less. This program is limited to products that meet specific criteria, and is reserved for orders of 55 to 165lbs.

Criteria	
Color	Solid
Color Tolerance	1.0 DE
Resin System	Standard Durable TGIC Super Durable TGIC AAMA 2604
Cure Schedule	10/400 °F 10/375 °F
Light Source	D65 (Daylight) CWF (Cool White Fluorescent)
Surface Appearance	Smooth: 40-100% gloss
	Textures: 4-9% gloss
	7-13% gloss 10-19% gloss
<i>*TruExpress is packaged in 55 lb boxes only</i>	

1) Email Sales Representative

Email your sales representative stating details of the color you would like to have matched

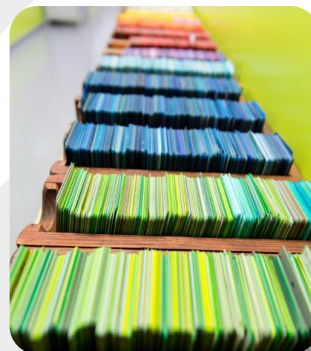

2) Ship Standard

Ship color target standard to TCl in Americus, GA. Ideally this is in the form of a painted metal piece such as a chip or panel

3) Approve Match

Our state-of-the-art innovation center can have your color matched and sent back in 3 days or less for you to approve

Standards should be sent to:

TCl Powder Coatings
Attn: TruExpress
300 Martin Marietta Dr,
Americus, GA 31719

*For more information please contact your TCl Sales Representative.
